SEWING TUTORIAL :

1-Print the pattern file and cut out the main cover pattern with scissors.

2-Place the patterns on the leather with a little space between them(grain side up for genuine leather / back side up for synthetic leather).

3-Use a gel pen or awl to carefully trace around each pattern.

4-Cut the leather pieces with a sharp craft knife, following the spaces between them.

5-Skive the cut pieces using a skiving machine or by hand.

6-Then, trim the skived pieces again with a knife so that the pen marks are completely removed.

7-Use a creaser to mark the edges of the notebook holder and apply edge paint.

8-Glue the notebook holder onto the main body.

9-Crease and paint the edges of the bookmark as well.

10-Glue the bookmark slightly in front of the notebook holder.

11-Fold the edge of the pocket, crease it neatly, and stitch it.

12-Then glue the pocket onto the main body.

13-Crease and paint the edges all around the flap, then glue and stitch it to the main body.

14-Crease and paint the edges of the pen holder.

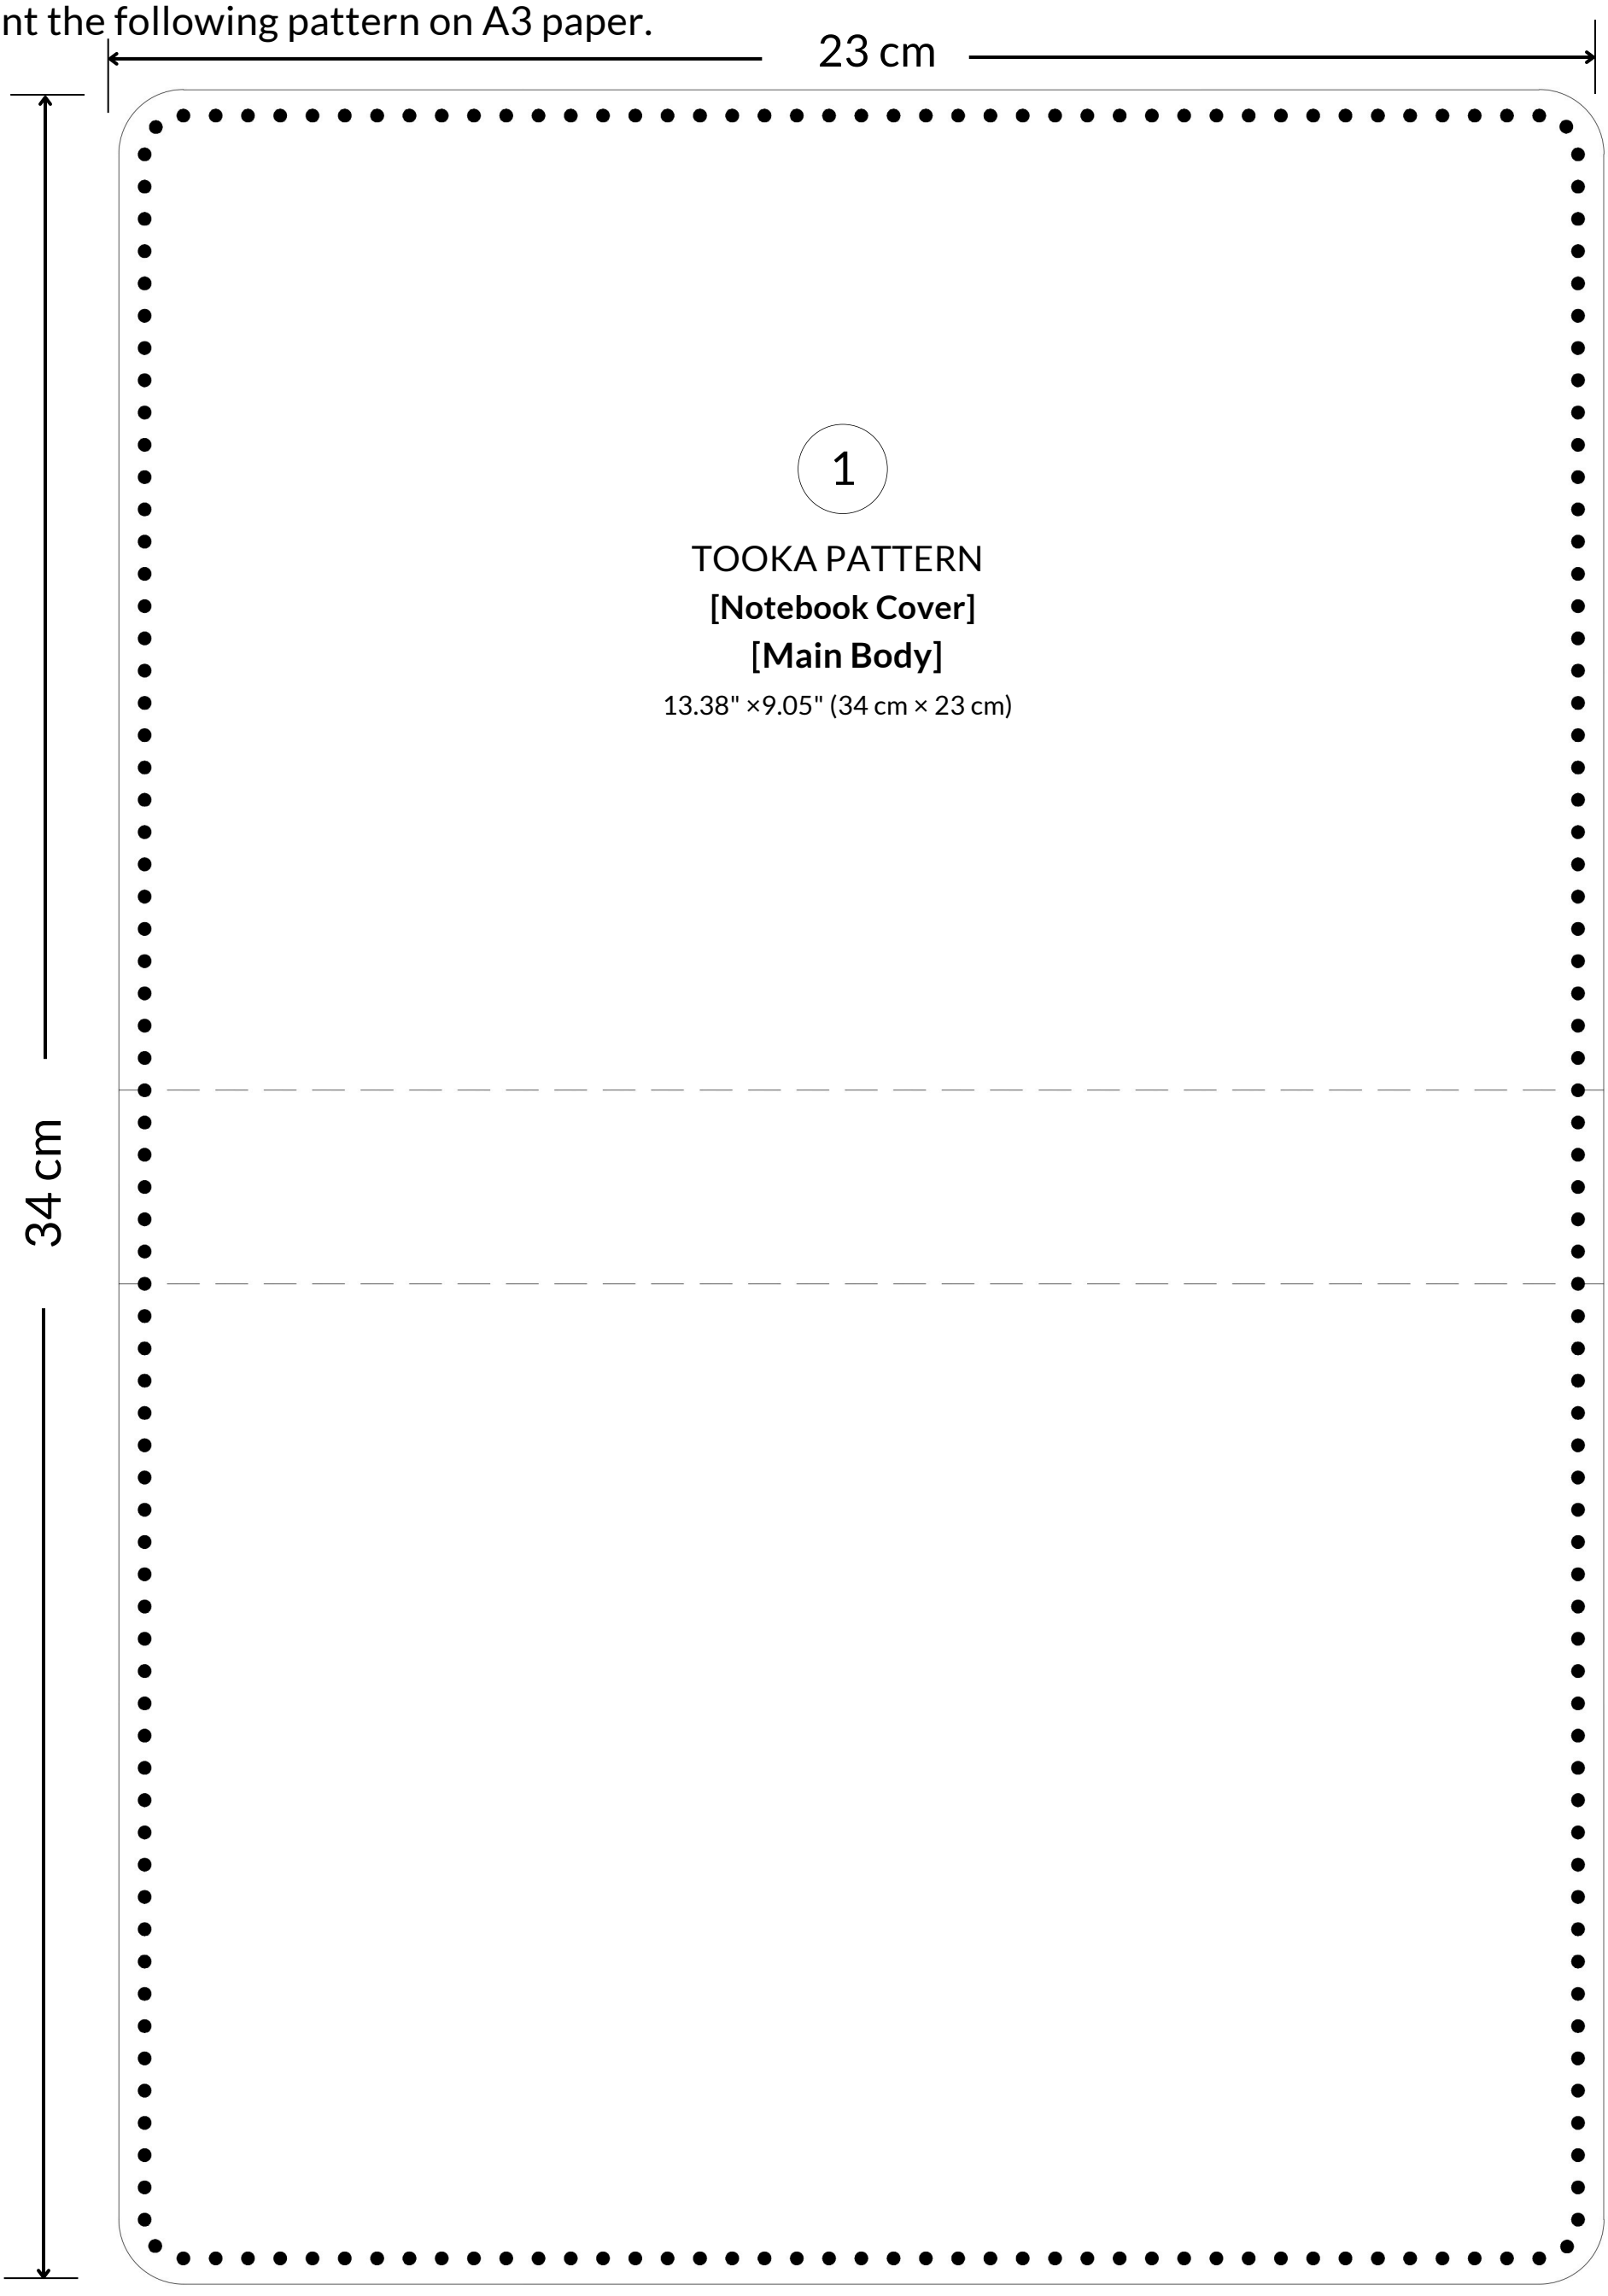

15-Fold the pen holder in half, glue its edges together, then attach it—first the edge, and then the whole piece—on top of the pocket.

16-Finally, crease both the inner and outer edges of the cover, sand them smooth, apply edge paint, and stitch all around.

And it’s done!
