
LEATHER DOG HARNESS

Assembly instructions

Difficulty level:	Beginner
Completion Time	3 - 6 hours

NECESSARY TOOLS

B&W Printer

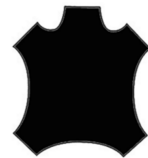

Scissors or a cutter

Hole Puncher (We recommend 1.5 - 2 mm sized holes for this build)

Between 3 and 6 square feet of leather. (We recommend 6 - 8 oz leather for this build)

Thread and needles (We recommend 1.2 mm waxed thread for this build)

1 x D rings, 3 x rectangular metal loops, 4 Buckles cm and 6 rivets

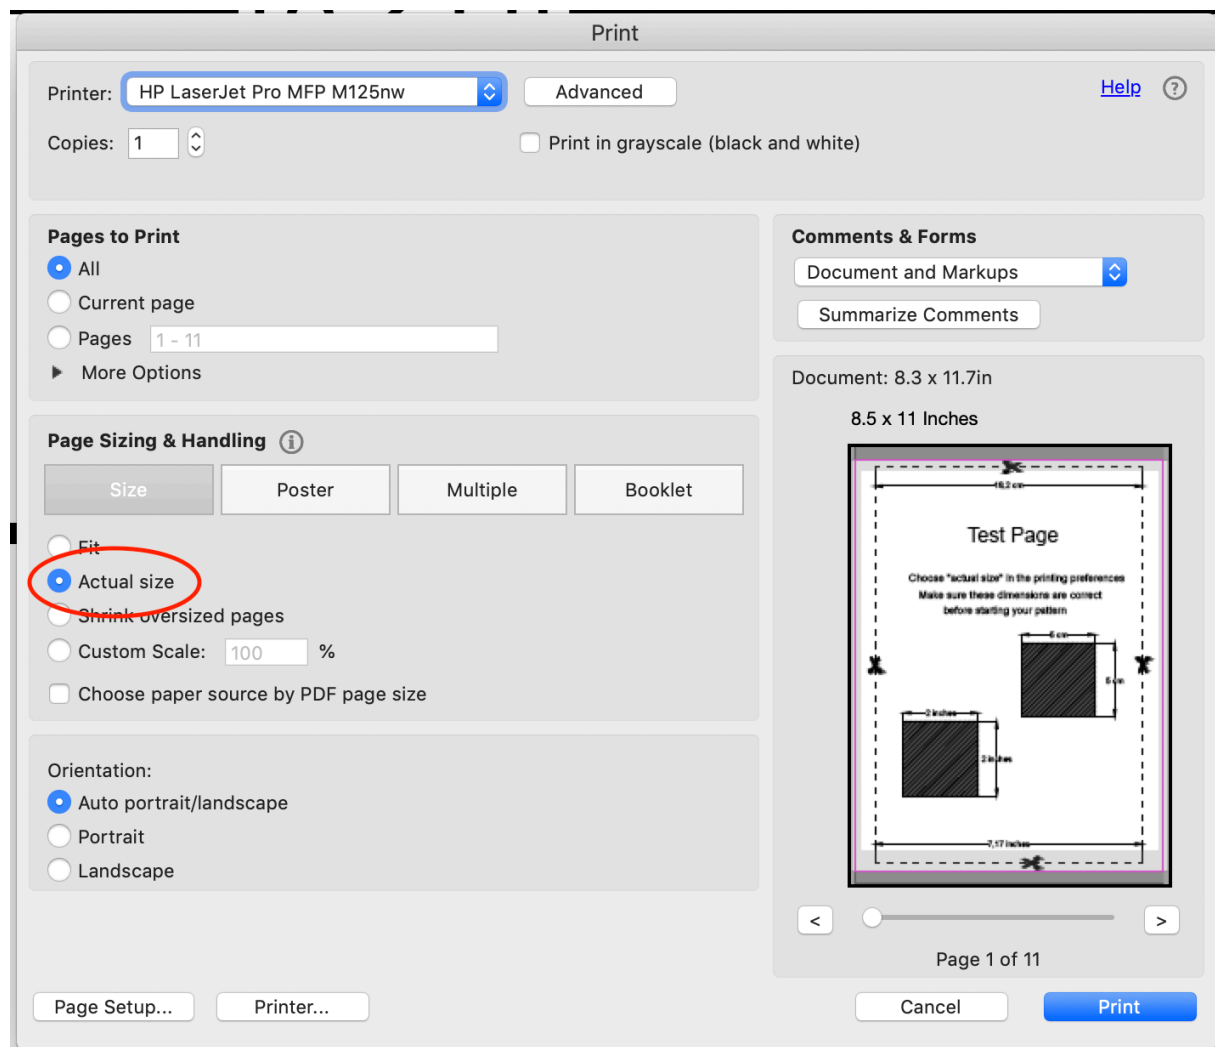

If you want to purchase the same buckles I used you can find them here:

20 mm: www.etsy.com/listing/590919596

25 mm: www.etsy.com/listing/656001641

PRINTING THE PATTERN

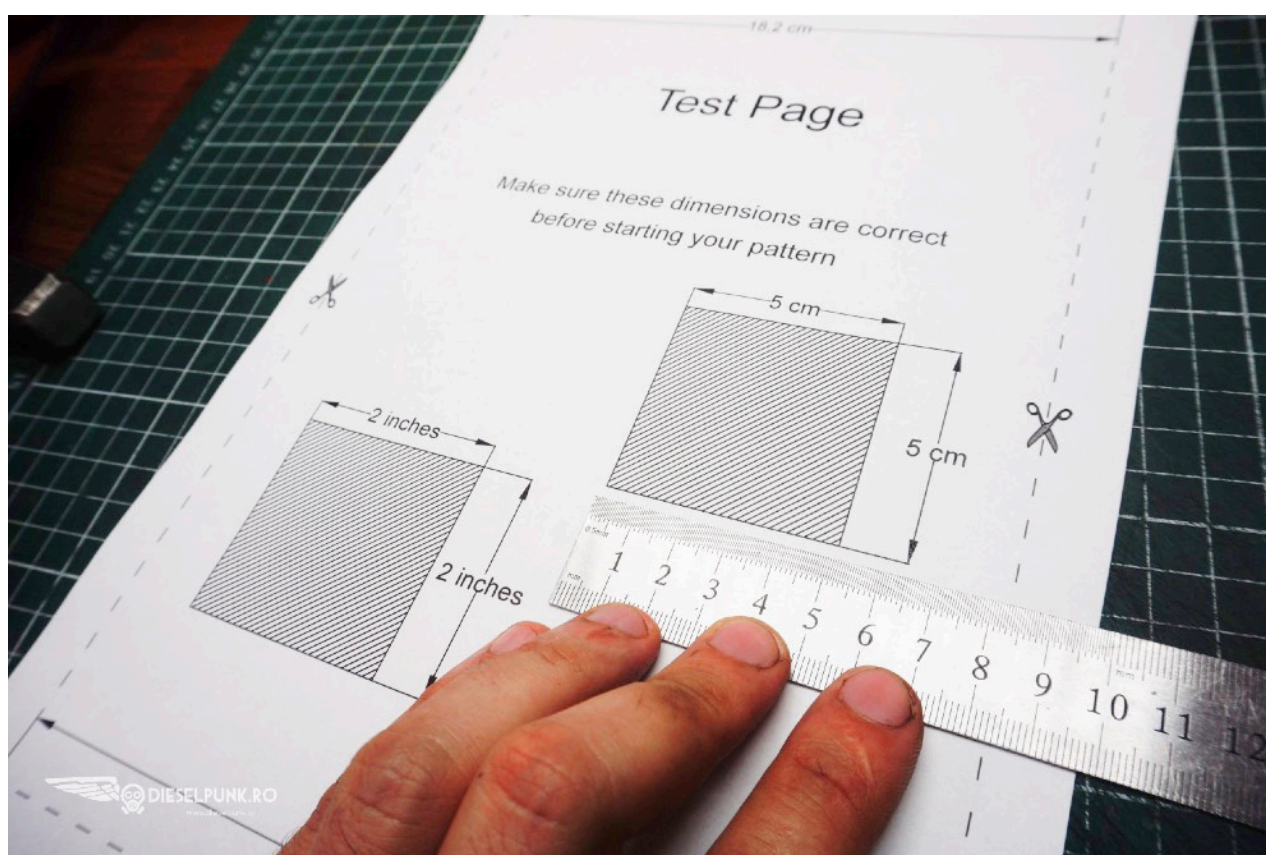

Set up your paper size to A4 and choose actual size in the printer settings

Alternatively you can use “letter” format which is approximately the same size and will not impact the size of the product significantly

Print all the patterns.

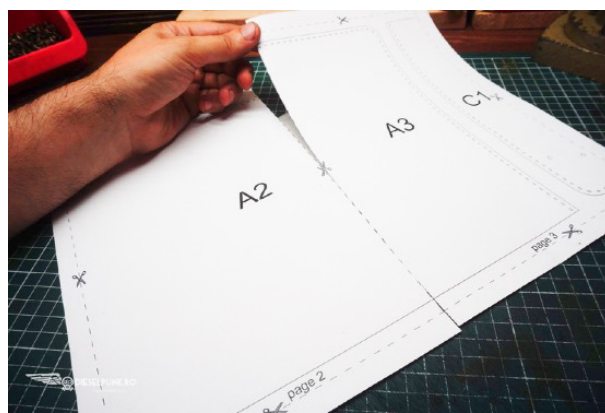

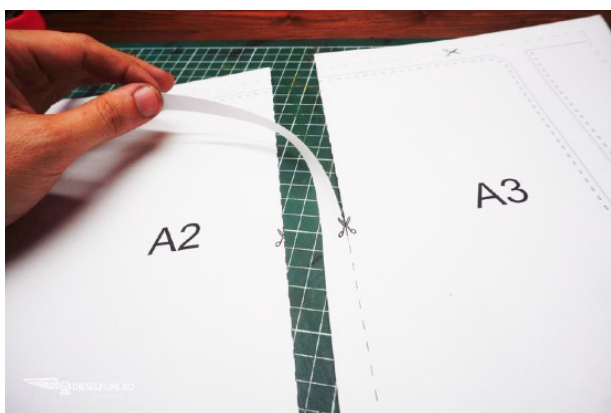

The first page is a measuring reference and you can use a ruler to make sure it matches the square. That means the rest of the pattern will print on the right size

Take note that some of the larger parts are spread over two or even four pages.

Use the second page of the pattern as an assembly guide

Cut out the edges and use only the inside of the page

IMPORTANT NOTE

**this project can take up to 6 square feet of leather
so I STRONGLY recommend before cutting precious leather
to carefully measure your dog's chest at its thickest
and choose the appropriate pattern**

**After you print and assemble the paper patterns
take a few extra minutes and attach all of them together with tape
then place them around your dog to check for a good fit.
DO NOT SKIP THIS STEP!**

if nothing fits contact me on Etsy for a custom size

In order to further help with your build, we filmed the entire process from the start to finish.
