

Pattern Assembly Template

I suggest using a 5oz leather. However, anything from a 4 to 6oz should work just fine. You'll also need some hardware. All the hardware will be 5/8" or 1.5cm. You'll need 4 regular D rings, 2 square D rings, and 2 clips. While the rivet, snap, and ball stud holes are marked, make sure to use the appropriate size hole punch for the hardware you'll be using.

4

Can be for a 1.5" (3.8cm) wide belt, or here for a 2.5" (6.4cm) wide belt.

Can be for a 1.5" (3.8cm) wide belt, or here for a 2.5" (6.4cm) wide belt.

5

If using these optional parts you may punch out the large holes, the long slot or leave a solid piece.

Leather Working Classes, Supplies, Tools, Patterns, and Art

To print on a home printer select 100% or true to scale/size. Another setting that sometimes gets overlooked is the poster sitteing. Some printers or software requires you to also select that to ensure all the pages get printed. You may also need to select separate pages to multiple sheets before you are allowed to select print at 100%. And lastly you may need to set your margins to the lowest setting to make sure the cut lines and pattern don't get cut off on the edges.

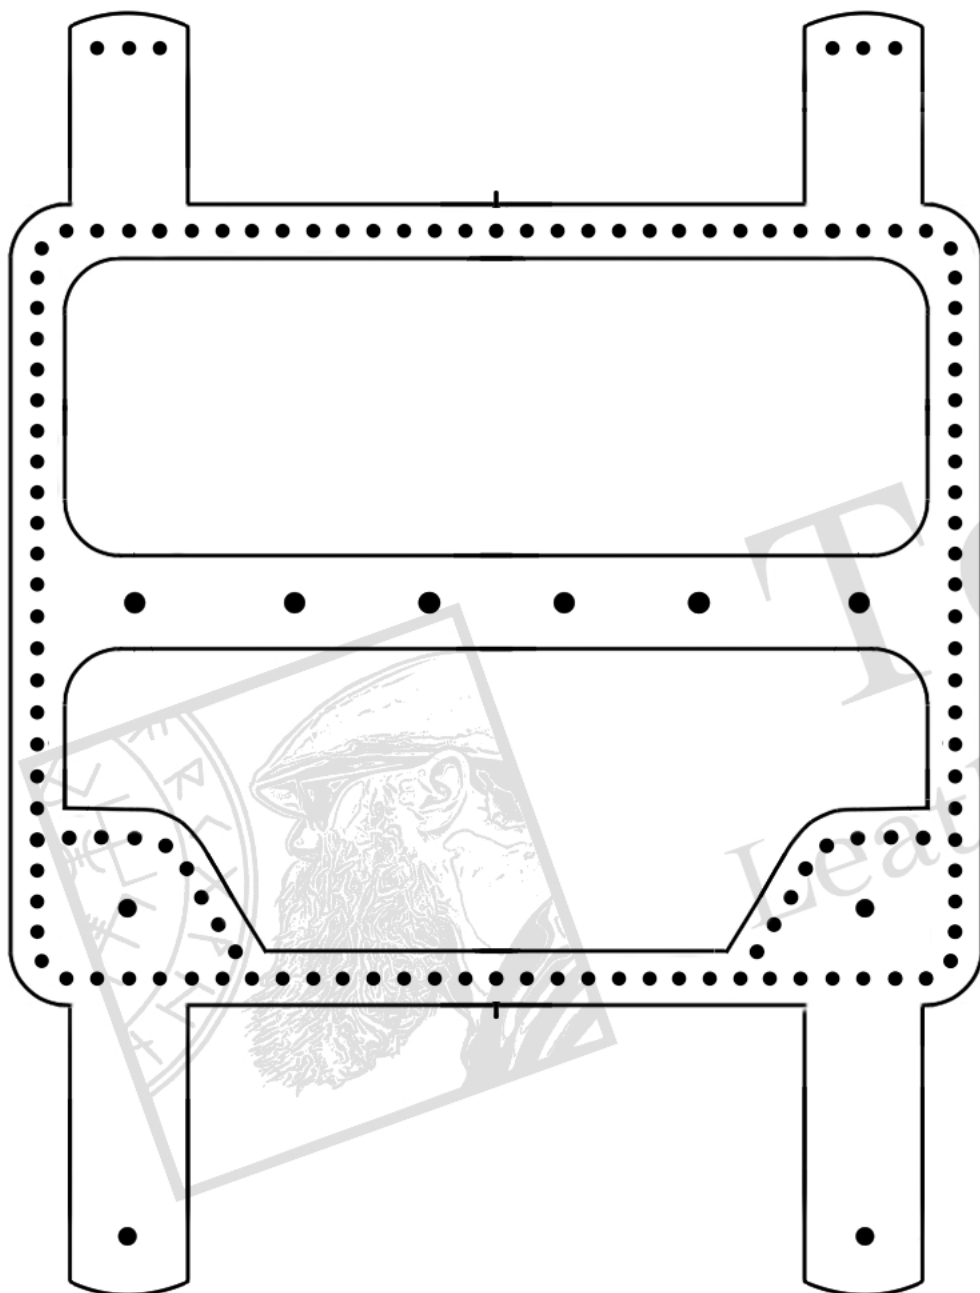

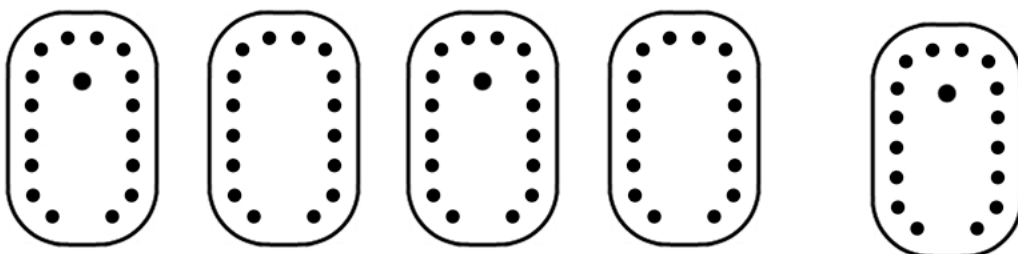

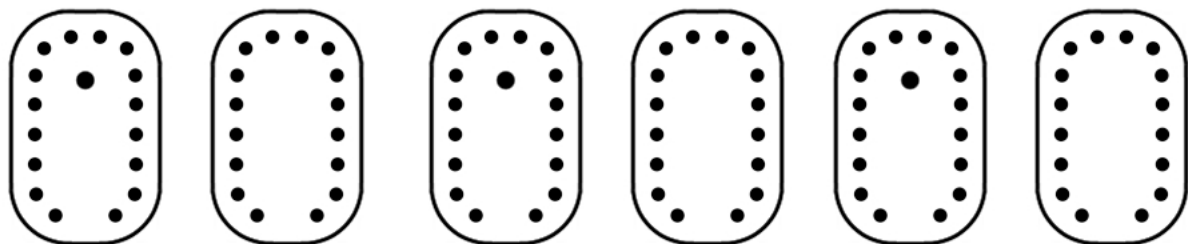

If you have any questions feel free to messege me through Etsy.
